Professional Summary

Currently gaining hands-on full stack development experience using React and C# ASP.NET APIs in a production environment.

Motivated and detail-oriented Software Developer / IT Graduate with a strong passion for building practical, user-focused solutions. Experienced in front-end development (React), backend fundamentals (Node.js), WordPress customisation, and IT system support. Holds an NQF Level 5 qualification and is currently completing an NQF Level 6 Diploma in IT. Demonstrates solid problem-solving skills, clean coding practices, and the ability to work across the full development lifecycle using Agile principles. Seeking to grow in a hands-on development role within a collaborative, technology-driven environment.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React
 - **Backend & APIs:** Node.js , REST APIs, GraphQL, ASP.NET
 - **Programming Languages:** PHP, Python, C#, C++, Java
 - **Databases:** SQL, Database Fundamentals
 - **Version Control:** Git, GitHub
 - **Web Platforms:** WordPress Theme Customisation
 - **Tools:** Jira, VS Code
 - **Operating Systems:** Windows, Linux
 - **IT Support:** Hardware & Software Installation, Troubleshooting
 - **Networking:** Networking Fundamentals, Configuration Basics
-

Development & IT Skills

- Front-end application development and UI implementation
- Component-based development using React
- Backend fundamentals with Node.js and Express concepts

- RESTful API consumption and integration
 - Agile development practices (sprints, collaboration, iteration)
 - User-centred design and usability-focused development
 - Debugging, testing, and code optimisation
-

Professional Experience

Full Stack Developer Intern

SpecCon, Pretoria, South Africa

Jan 2026 – Present

- Working as a Full Stack Developer Intern on enterprise Learning Management Systems (LMS).
 - Developing modern front-end interfaces using React with a focus on performance and usability.
 - Building and consuming RESTful APIs using C# ASP.NET on the backend.
 - Contributing to system optimisation initiatives aimed at improving LMS performance by approximately 30%.
 - Assisting with SEO improvements to enhance search visibility and page load efficiency.
 - Collaborating with developers, designers, and stakeholders using Agile-based workflows.
 - Applying clean coding practices, debugging, and performance tuning across the full stack.
-

Shaper Learnership Student – Business Analysis & System Support

Shaper, Johannesburg, South Africa

Dec 2024 – Dec 2025

- Completing a structured Business Analysis and System Support learnership with strong technical exposure.
- Developed a CRM system using Java and SQL, improving data accuracy by approximately 30%.
- Applied requirements gathering and user stories to guide system functionality and development.

- Used process visualisation (flowcharts and models) to design system workflows.
- Gained exposure to Agile practices, including sprint planning and collaborative delivery.
- Performed system management tasks such as software installation, updates, and hardware configuration.
- Conducted technical and business research to support system improvements.

Front-End Developer & WordPress Stylist

SpecCon, Pretoria, South Africa

Jun 2025 – Nov 2025

- Styled, customised, and maintained multiple **WordPress websites** to improve usability and visual consistency.
- Built and modified front-end components using HTML, CSS, and JavaScript.
- Collaborated with developers to enhance features and ensure cross-browser compatibility.
- Translated user and client requirements into functional front-end solutions.

Tutor – IT Subjects

Richfield, Pretoria, South Africa

Jan 2025 – Nov 2025

- Tutored students in system support, HTML, CSS, and introductory programming.
- Assisted with assignments and practical coding exercises, strengthening problem-solving and explanation skills.

Education

Diploma in Information Technology (NQF Level 6) – In Progress

Richfield College, South Africa

2024 – Expected 2026

- Coursework includes: PHP, Networking, Java, C#, C++, Python

National Certificate: IT System Support (NQF Level 5)

SpecCon, South Africa

Jan 2025 – Nov 2025

Higher Certificate in IT Systems Development

Damelin College, Pretoria, South Africa

Feb 2023 – Dec 2023

- Relevant coursework: Web Technologies, Software Development, Database Administration, Project Management
- Average: **81%**

CodeTribe Front-End Bootcamp

mlab, Pretoria, South Africa

Mar 2024 – Jun 2024

- Front-end development using HTML, CSS, and JavaScript
- Capstone Project: <https://codetribe-final-project.web.app/>

Career Objective

To grow as a **Junior Software Developer or IT Graduate**, contributing to real-world applications using modern web technologies (React and Node.js), while continuously developing full-stack and system-level expertise.
